Document 2: Warranty and Repairs

Harbour & Pine Outdoor Co. Warranty and Repairs

Harbour & Pine products are built to last. This page explains what our warranty covers, how to make a claim and how our repair service works.

What the warranty covers

Our warranty covers manufacturing defects. A manufacturing defect is a fault that was in the product when it was made, such as a seam that comes apart, a zip that fails under normal use, or a waterproof coating that peels off in the first few seasons. The warranty periods are:

- Tents: 3 years from the date of purchase.
- Waterproof jackets: 2 years.
- Sleeping bags: 5 years.
- Hiking boots: 1 year.
- Accessories such as footprints, pegs and poles sold separately: 1 year.

The warranty applies to the person who bought the product from us. It cannot be transferred to someone else, and it does not cover products bought from other shops.

What the warranty does not cover

The warranty does not cover normal wear and tear, such as worn soles, scuffed fabric or a faded colour. It does not cover damage caused by misuse, accidents, fire or open flames, or by changing the product in any way. It does not cover damage from storing the product badly. For example, mould that grows because a tent was packed away damp is not covered. Fabric softener damages the waterproof coating on jackets, so a jacket that has been washed with fabric softener is not covered either. Our Product Care Guide explains how to look after each product.

Examples

Covered: a tent pole that cracks the first time you use it. A jacket seam that leaks after one season. A sleeping bag zip that jams in the first year. Boots where the sole separates from the upper within 12 months.

Not covered: a jacket torn on barbed wire. A tent that was left pitched in the sun all summer and has faded. Boots with soles worn smooth after three years of regular hiking. A sleeping bag that was stored compressed for months.

How to make a claim

Email support@harbourandpine.example or call 555-0142 during store hours. Please include your order number, a short description of the problem and clear photos of the fault. If you cannot find your

order number, give us the email address you used when you ordered and we will find your order. You do not need a paper receipt.

We reply to every claim within 1 business day. If we need to see the product, we will email you a prepaid return label, so you do not pay to send back a faulty product. Once the product arrives, we make a decision within 5 business days.

What happens when a claim is approved

If your claim is approved, we will do one of three things. We will repair the product, replace it with the same item, or refund you, depending on the fault. If the same item is no longer made, we will offer a replacement of equal or higher value. We choose which of the three to offer, although we always try to give you the one you ask for.

If we decide that the fault is not covered by the warranty, we will tell you why and send the product back to you at no cost. You can then decide whether to pay for a repair.

Our repair service

We repair Harbour & Pine products that are out of warranty, as long as they can be repaired safely. Repairs take about 10 business days from when we receive the product. The prices are:

- Zip replacement on a jacket or sleeping bag: $18.
- Seam re-taping on a jacket or tent: $25.
- Replacement tent pole section: $22.
- Jacket re-proofing: $20.
- Boot resoling: $85. This service is available for the Granite boot only and takes about 15 business days.

For out-of-warranty repairs, you pay to send the product to us and we pay to send it back to you. We confirm the price by email before we start, and we do not carry out any work until you agree.

Questions we often hear

Is the warranty the same as returns? No. Returns are for products you are not happy with. They are covered by our Returns Policy, which allows you to return unused items within 30 days of delivery. The warranty covers faults that appear later, during the warranty period.

Can I claim on a product I have used for a long time? Yes, as long as it is within the warranty period and the problem is a manufacturing defect rather than wear and tear.

Will you keep me updated during a repair? Yes. We email you when we receive the product, when the repair is finished and when it has shipped back to you.
